

HOUSING FOR THE ELDERLY AND DISABLED PERSONS

The developments listed below are subsidized housing for low-income persons or couples who are over the age of 62 and/or physically disabled. Household size and income must meet the U.S. Department of Housing and Urban Development guidelines, which are available from resident managers.

Each development maintains its own waiting list and application procedure for rentals. Since the waiting lists change from time to time, interested people should call or visit any of the developments for more up to date information.
